

Healthy School Policy

For the health of your child and all of the children in school, we ask you to keep sick children at home if they have experienced any of the following within the past 24 hours:

- Fever (over 99 degrees)
- Severe coughing
- Pinkeye – (tears, redness of eyelid lining, followed by swelling and discharge of pus)
- Sore throat or trouble swallowing
- Muscle aches
- Vomiting
- Unusual or unexplained loss of appetite, fatigue, irritability or headache
- Diarrhea

If your child has any of these symptoms, please wait 24 hours after symptoms have ceased before returning to school.

If your child becomes ill while at school, you will be called immediately, and your child will be separated from the other children. Any child with a temperature 99 degrees or higher will be sent home.

Please remember that children are highly contagious during the first stages of illness and should be excluded from school if they show any of the above listed symptoms.

During the wellness check upon arrival, if the teacher feels that your child shows any sign of illness, we will ask that you take your child home.

We appreciate your cooperation with our Healthy School Policy. If you have any questions about whether or not your child should attend school that day, please call us *before* bringing your child.
